## Mounted Police Civilian Equine Sensory Training Clinics

Saturday, Sept. 29 & Sunday, Sept. 30, 2018 (Alltech Arena)

(identical one-day clinics)

Our clinics (grounded in natural horsemanship techniques) are fun, laid back, with lots of help and encouragement from our mounted police clinicians. Limit - 30 riders per clinic. Riders are then divide into three smaller groups rotating through the following sessions, each with two mounted police instructors.

**Obstacle Session:** first done in-hand until rider and horse are comfortable with the various obstacles. There is no pressure to work the obstacle session under saddle until you and your horse feel comfortable. Riders often choose to spend the whole session working in-hand to build the horse's self-confidence. **New this year - optional outdoor obstacle course training will be offered during the indoor obstacle session time period.**

**Drill/Sensory Session:** Rider/horse teams work side by side allowing horses to gain confidence working in close proximity to other horses. When the group is comfortable, the trainers will introducing sensory items - "horse toys" - such as large balls, flags, noises, etc. This sensory work is done with safety in mind. Riders and horses are not pushed beyond their comfort level. We want each rider/horse to leave the arena a with a sense of accomplishment and increased confidence.

**Equitation Session:** instruction in classical equitation.

We welcome horses of all breeds (gaited and non-gaited) and riders from all riding disciplines with western or English tack. Our riders typically have a wide range of riding skills and experience and usually range in age from 20s to 60s. **Must be 18 yrs. old to register.**

FYI: our clinics are fundraisers for the mounted police horses and are co-sponsored by the Friends of the Lexington Mounted Police, Inc. and the Kentucky Horse Park.

### Mounted Police Instructors

Mounted Police Instructors for this year's sensory clinic have extensive knowledge policing from horseback and teaching civilian sensory clinics. The instructors will utilize techniques from the ground and under saddle to teach and build confidence in the horse/rider team. Instructors have trained their respective units and mounted police officers and civilians from around the country and Canada.
